

## NEW LIFE FOR YOUR USED FURNITURE.

When corporate spaces are refreshed and redesigned, scores of desks, chairs, fixtures and building materials often find themselves without a home—many with a great deal of life left in them.

That's why AIS has partnered with ANEW. Instead of sending these items to a landfill, ANEW stewards no-longer-needed office furniture to deserving schools, nonprofits and communities across the country—often for the same or less than the cost of disposal. When possible, local groups are selected as beneficiaries, to help ensure that your generosity supports those close to home.

in 20 countries

## It's not just good—it's good **business.**

It's easy to see how giving your furniture and fixtures a second life benefits the environment. But there are sound business reasons for repurposing used items through ANEW. You'll receive a tax receipt for your donation, as well as comprehensive metrics that show stakeholders and investors how your decision affects your organization's carbon footprint. Donating surplus items for stewardship can even save money, compared to sending them to a landfill.

Letting AIS and ANEW find a new home for your items means everyone wins. It's a goodwill gesture that also supports your corporate social responsibility efforts and bottom line.

## Let's get started.

See how AIS and ANEW can turn your unwanted furniture headaches into something much more gratifying.
